

LIVE NEWS OF THE INDUSTRIAL WORLD

D. L. & W. SWITCHMEN WILL ASK FOR A CONFERENCE.

They Have Some Grievances They Desire to Bring to the Attention of the Officers of the Company—Manufacturers' Committee of Board of Trade Considered the Tin Plate Matter—Some Recent Orders Issued by A. C. Salisbury—Limits of the Local Yards Designated.

The switchmen employed in the Lackawanna yard of this city, numbering 101 men have appointed a grievance committee which will wait upon President Truesdale and Superintendent Russell in New York city in about two weeks if such a meeting can be arranged for.

The purpose of the proposed conference will be the adjustment of several grievances which the men say they have against the company. They claim that they are not paid as high wages as are the switchmen on other roads of the same class as the Lackawanna. There are also several other minor grievances which they are desirous of discussing with the officers of the company. Frank Jones, chairman of the grievance committee, is hopeful for a satisfactory outcome of the conference.

That Tin Plate Factory. The manufacturers' committee of the board of trade met yesterday afternoon in the office of Secretary Atherton of the board for the purpose of taking final action regarding the establishment in this city of the proposed tin plate mill which will be operated by Mr. Torbet, of Chicago, is the promoter.

All of the members expressed themselves as being heartily in favor of the proposed industry and the only point upon which there seemed to be any doubt was as regards the cost of the raw material as compared with the market price of the tin plate.

Information regarding this is now being secured and it was decided to adjourn until next Monday afternoon by which time Secretary Atherton will have received definite data concerning this particular. The committee, however, passed a resolution yesterday favoring the industry, pending the arrival of this information.

Yard Limit Signs. The following order to conductors and engineers was issued by Superintendent Salisbury:

Yard limit signs have been placed 2500 feet south of the Taylor yard and 2500 feet north of Minooka junction. The track between these signs will be considered Taylor yard.

Drilling engines will have the right to work within these limits without flag against second class and irregular trains, moving carefully to prevent collision and keeping ten minutes off the time of all first class trains.

Second class and irregular trains under perfect control expecting to find main track occupied, and proceed through at such a rate of speed as will insure absolute safety.

Drill engines must get out of the way of road engines and not detain them. This order will be effective from November 15, 1899.

Conductors' Winter Uniforms. Another order has been issued by Superintendent Salisbury, which is as follows:

Passenger Conductors, Northern, Southern and Bloomsburg Divisions. I want to see you all at your men within the next two or three days with your winter uniforms on to decide whether or not you should purchase new ones. Will either be in the baggage room at Scranton myself or have a representative there to attend to this.

A. C. Salisbury.

This and That. Edward M. Rine has been appointed chief train dispatcher of the Northern, Southern and Bloomsburg divisions, with office at Scranton.

Bulletin No. 107 of Oct. 26, 1899, issued from Superintendent Salisbury's office has been modified. The pusher and summit engines between Scranton and Lehigh will hereafter turn at Lehigh and Scranton respectively.

A number of the Lehigh Valley's new 80,000 pound steel cars have left the works and are now on their way here. They are expected to reach here early this week and will be immediately distributed to the various collieries.

The conductors of all freight trains, excepting those running through, have been notified to arrange to leave the keys of their cabooses on completion of each trip in the general yard master's office at Scranton yard.

The Valley is erecting a large tower at Penn Haven, which, when completed, will contain forty-four levers. All the switches and targets around that busy junction will be operated from this tower and it will be in charge of the telegraph operators who are at present located in the station. The two switch tenders will be done away with.

The improvements on the Catawissa branch of the Philadelphia and Reading are marked. All except two of the wooden structures have been replaced with fine steel trestles and bridges. The Newberry yards, where the Catawissa joins the Bech Creek, have been

Dr. Bull's COUGH SYRUP Cures Croup and Whooping-Cough Unexcelled for Consumptives. Gives quick, sure results. Refuse substitutes. Dr. Bull's Pills cure Biliousness. Trial, 50 for 50.

very materially enlarged, and now have a capacity of about 1,500 cars. A large part of the roadbed has been relaid with heavy rails and altogether everything is -ne, and in a very satisfactory condition.

THEAT FLOWER SHOW. Large Number of Persons Visited the Boies' Conservatories.

The flower show at the conservatories of Colonel and Mrs. H. M. Boies yesterday was a great success aesthetically, financially and every other way. There were many visitors and Mr. Clark, the gardener, who has produced such marvelous results in the management of the conservatories was near at hand to satisfy the curiosity of any who wished to know about the multitude of beautiful and often strange plants to be seen on every side.

There are private hot houses which occupy a larger area than those at "Treeymount" but few can be found which contain more rare floral specimens or those which have been more difficult to procure.

There was one orchid which attracted much attention yesterday. It was the strange mottled greenish variety recently named "The Baby," because of a most peculiar formation in the centre of the flower which is a precise image in miniature of a child arrayed in a short dress with striped stockings.

One visitor who was intently examining the queer little blossom, suddenly remarked: "Why it is a yellow kid!" Mrs. Boies promptly labeled the orchid "The Yellow Kid," adding the phrase "Find It." A task which the guests found small and easily in doing.

It may interest those who marvelled at the mighty leaves of the banana tree to know that this huge growth which reaches to the apex of the building and then finds too cramped space, is cut down every year after the fruit has ripened, and that the bananas raised in Colonel Boies' conservatories are of superior flavor.

Mrs. Henry Bellin, Jr. and Mrs. C. H. Welles assisted Mrs. Boies yesterday afternoon and evening, when a handsome sum was realized for the Hahnemann hospital.

DUNMORE DOINGS. Those from Dunmore Attending the Missionary Convention at Avoca.

Charles Reilly Surprised. The Ladies' Home and Foreign Missionary society of the Presbyterian church now in convention at Avoca, are drawing numbers interested in these worthy causes from this borough.

The delegates who represent the Women's society from here are Mrs. Charles Farrer of Cherry street, and Mrs. W. T. Loveland, of Clay avenue, while the Young Ladies' Mission circle is represented by Misses Grace Chamberlain, Ella Boyd and Bessie Shepherd.

CHARLES REILLY SURPRISED. A surprise party, composed of the young friends of Charles Reilly, very agreeably surprised and in turn were entertained at the home of Mr. and Mrs. James Reilly, on Taylor avenue, Wednesday afternoon.

Those present who enjoyed the afternoon were:

SCRANTON'S SHOPPING CENTER.

Silk Waists, Jackets, Separate Skirts, Capes,

Women's Suits Although this is a bustling, active, swiftly-moving business, we make our selections with care. The best evidence of how much care is—the garments themselves. Note with as much deliberation as you wish, how even the smallest details are properly done—the making of button holes, the stitching of seams, the turn of a collar, the sewing on of buttons. These are little things, but they have helped to make our garments what they are. No matter what price we ask, you get the best possible for the price.

Women's Suits

Most stores want you to know that they manufacture their own Cloaks and Suits. We want you to know that we do not. The secret of our success has been largely in our freedom to choose each kind of a garment from the very best maker of that particular garment. For instance: We recently advertised a certain garment in three grades. Each of these grades was made by a different house, and each kind was much better than it could have been if any one house had made them all. It's the close competition of all the best houses for your trade that keeps the standard at our store so remarkably high.

New Styles in Furs

We are not novices in the fur business. Our experience in furs dates back many years. Our styles for this season are extremely handsome and were selected with great care. Fur Jackets are shorter and jauntier in styles. The favorite shapes are cut from a Re-vilion Model—short and curved at hips, and sloping in front. In Fur Neckwear the styles are very attractive. For Tailor-Made Suits, Neck Scarfs and Collarettes come in many combinations. Collarettes have high-rolling collars, warm either up or down.

CONNOLLY & WALLACE, 127 and 129 WASHINGTON AVENUE

Three-Quarters of All the Wealth in Scranton Was Made on Real Estate By Buying When Land Was Cheap.

There are today opportunities in Scranton as good as those of fifty years ago, when the city's wealthy class laid the first foundation to their FORTUNES.

Our seventy-acre plot, between Scranton and Providence—THE DIAMOND—is located in the very center of the city. In five years Providence Avenue will be one of the busiest thoroughfares in Scranton. Here it is where most of the new factories and mills will have to come for sites. There is no room elsewhere except on the outskirts, two and three miles from the center. Buy now, before the rising tide places our land out of reach of people with moderate means.
